

P-WAVE®

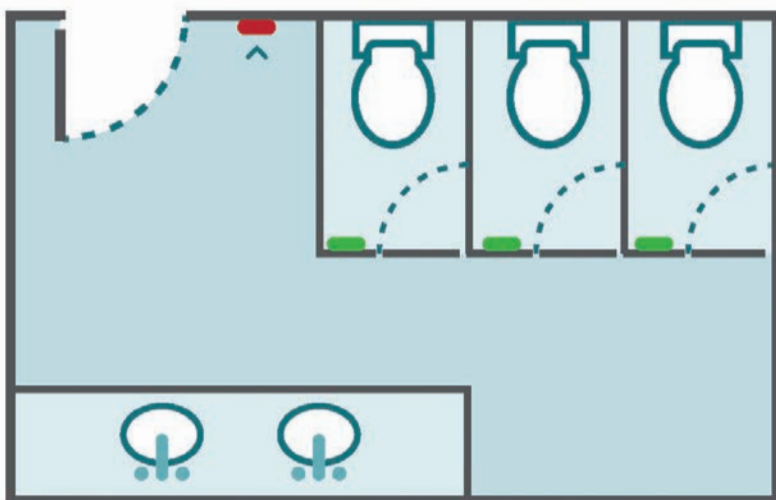

DOOR FRESH

30 day great looking air freshener system!

This is part of the P-Wave range but designed to be 'softer' in fragrance. The 'Brain' is designed to go near the entrance by the door, whilst the 'Drone' goes in each of the stalls on the door. Each time the doors open and close, the Unique design allows the fragrance to be released. The battery in the Brain then indicates when 30 days are up and you then change the air fresheners. Simple! There are three new fragrances to choose from; Cucumber & Melon, Spring Rain & Clean Breeze. P-Wave Door Fresh is the intelligent air freshener with a fragrance that lasts for over 30 days.

- The Unique design allows air flow created by doors
- Low Cost
- Lifetime guarantee on Brain battery
- Light flashes on day 30, audible beep on day 34
- Refill recyclable

The Brain (Shown in red)
Use it beside the restroom entrance door to create a great first and last impression.

The Drone (Shown in green)
Use one in each stall to easily and effectively freshen at the odor source.

Fragrance	Part No.	Colour
